

Food Pass Hinge

For use on food passes, observation shutters and other small swinging doors where a medium duty hinge is required. Available with solid leaves for welded application or pre-drilled for fasteners. The 203FP is a version of the 203FS with a built-in stop to hold the food pass door in a horizontal position for use as a shelf.

SS-203FP

Full Mortise Hinge

For swinging hollow metal doors. Each hinge features cast stainless steel leaves with integral security stud and nonremovable stainless steel pin. Security fasteners are provided with each unit.

SS-204FMSS

Electric Power Transfer Hinge

Designed to supply power from door frames to electric locks on hollow metal doors, the 204E Power Transfer Hinge contains five completely concealed and tamperproof Teflon~coated conductors. Available in full mortise configuration only to be used with 204FM institutional hinges. This is not a load-bearing hinge.

SS-204E

Heavy Duty Hinge

Swinging doors at cells, corridors, plumbing chases or other locations where a higher degree of security is required. Available in full surface, half surface or gap type configurations. Since these hinges are usually welded, standard hinges are provided without attachment holes.

These hinges are drop forged of mild steel and feature heavyduty thrust bearings, completely concealed and protected from tampering. Extremely strong and durable, one pair will support a standard plate door measuring 2'4" x 10" and weighing 250 pounds. Larger or heavier doors require a third hinge.
