

Paracentric Cylinders

Southern Steel manufactures a complete line of high-quality, detention-type locks using paracentric lever tumbler cylinders. The cylinders are cast bronze and are operated by paracentric key. Master keying is not available for locks with paracentric cylinders.

Mogul Cylinders

Many of our locks are equipped with a “mogul-type” cylinder. This rugged cylinder is approximately twice the size of a standard “builder’s hardware” cylinder. The mogul cylinder has six-pins with side bar operation. Six tumbler cylinders provide higher security than standard five tumbler cylinder with more combinations available. All cylinders operate under a single master key, including security builders cylinder, if desired.

NOTE: Master keying available.
